Plant-Based

URINE
STAIN + ODOR
DESTROYER
ENZYMATIC CLEANER

- ✓ Designed to break down urine proteins hidden in carpet.
- ✓ Permanently removes urine smell instead of just masking it.
- ✓ Gets the urine stains out.
- ✓ Safe to use on carpets, upholstery, sealed hard surfaces, cement and all other water-safe surfaces when used as directed.

BEFORE USE: Remove excess solid or liquid waste. Shake well and test for colorfastness on a hidden area. Do not use on wool or leather surfaces.

DIRECTIONS FOR USE: Saturate the soiled area. When treating spots on carpets, cover twice the size of the mess and be sure to saturate the carpet backing and padding. Wait 10 or more minutes for the enzymes and Pro-Bacteria™ to break down the organic proteins. Blot excess moisture with a color-safe cloth. Allow the area to dry naturally, which may take 24-48 hours. When dry, the stain and odor will disappear.

If the area is dry but an odor persists, the odor source was not completely penetrated. Re-treat and be sure to completely saturate the soiled area to penetrate the odor source.

After use, wash hands with soap and water.

INGREDIENTS: Purified Water, Non-pathogenic Bacteria, Lactic Acid, Enzymes, Propanediol, Emulsifier and Fragrance

CAUTION: Avoid eye contact; product may irritate eyes. In case of eye contact, flush thoroughly with water for 15 minutes. Keep this and all cleaning products out of reach of children and animals.
